

Paper File California Sales Tax Prepayments at efileSalesTax.com

NEWBURY PARK, Calif. – (June 17, 2009) – efileSalesTax.com is the leader in California Sales Tax e-filing, but many customers want to use the same great system to “paper file” their sales tax prepayments.

After working closely with the California Board of Equalization (BOE), efileSalesTax.com is excited to announce it can give customers the option of paper filing or e-filing California Sales Tax Prepayments (BOE form 1150).

Using efileSalesTax.com to file a California Sales Tax Prepayment is fast and easy, often taking less than five minutes to complete. After filing out the form on-line, simply print, sign, and mail the completed 1150 form to the BOE along with payment. If you choose the e-file method instead, it’s just as easy, except the form and payment are electronically submitted to the BOE. It’s nice to have options!

The efileSalesTax.com prepayment system also integrates with the quarterly return. If you e-file or paper file your sales tax prepayments with efileSalesTax.com, when you come back to file the quarterly sales tax return, these prepayments are automatically imported to the 401a and 401ez tax forms, and the total tax due is adjusted accordingly. This saves time and reduces errors.

To get started, visit efileSalesTax.com, register, and follow the directions to Start a New Return.

Benefits to using efileSalesTax.com include:

- Automatic rate and form updates eliminates errors
- Compliant with state requirements
- QuickBooks import available
- 24 X 7 access to data and archiving
- Reminder Service

- Free customer service (English & Spanish)
- \$6.95 per filing, or \$199 per year for tax professionals needing unlimited filings
- Choice of payment options (paper check, ACH Debit, etc.)
- CPA Technology Advisor Magazine recently gave efileSalesTax.com 4 ½ out of 5 stars.
