efileSalesTax.com Now Accepts Credit Cards for Sales Tax Payments

NEWBURY PARK, Calif. – (August 18, 2007) – efileSalesTax.com has always saved taxpayers time and money with its quick and efficient system for filing California sales tax returns; however, users have been limited to one method of tax payment: debit from a bank account. Now, the team at efileSalesTax has worked closely with the California Board of Equalization (BOE) to allow credit card sales tax payments when you e-file. During the filing process, users can now choose the payment method best suited for their needs.

When making a sales tax payment by credit card, efileSalesTax.com automatically stores the time, date, and confirmation ID in the user's profile allowing quick and easy viewing of the payment for future reference.

Benefits of using the efileSalesTax.com system include:

- **Save time** – efileSalesTax.com is fast, accurate, and hassle free. Most users file in under 10 minutes!

- **Eliminate Errors** - Using a secure online portal, all data is calculated automatically and generated into an official state-approved sales tax form.

- **QuickBooks Compatible** - You can import your sales information directly from QuickBooks into efileSalesTax.com.

- **Easy Referencing –** Previously filed returns are accessible at NO cost, along with summary reports that show tax collections, prepayments, penalties and interest.

- **Ready Assistance -** An online help center, as well as phone and e-mail support with assistance and instructions available in English and Spanish.

At only $4.95 per filing, with discounts up to 20% for pre-paying the fee, efileSalesTax.com is a bargain to use. For Tax Professionals and CPAs with many clients, efileSalesTax also offers unlimited filings for $195 per year. Registration is free at efileSalesTax.com and there is no charge to start a filing and take the system for a test drive.

CPA Technology Advisor Magazine recently gave the efileSalesTax.com system 4 ½ out of 5 stars, saying it is a "very easy to use system". You can read the review online at
