"Our users continually step up to the plate and tell us ways they would like us to improve our system," said Ramon Rochin, CFO, efileSalesTax.com. "This kind of teamwork is invaluable and helped us earn the number one slot in the sales and use tax category."

In the magazine's article announcing the winners, writer Isaac O'Bannon explained the awards continue to show a trend toward tools that help firms and small businesses run leaner and more profitably. While not a scientific study, the voting results offer an informal view into the professional lives of tax and accounting professionals, their technology and vendor preferences.

Programs like efileSalesTax.com offer more value and require much less overhead to operate making them a better choice for businesses and tax professionals that file sales & use tax returns.

efileSalesTax.com adds this award to its' many accolades over the years. efileSalesTax.com received 4.5 out of 5 stars in a 2009 review by CPA Technology Advisor and tied for first place in the 2009 Reader's Choice Awards in the Sales ~~and~~ & Use Tax category. It also won "Rookie of the Show" at the 2008 FABExpo accounting show in Florida.
